

Sue

Sue O'Malley

**Accelerator Board MEMBER
SINCE 2024**

My diverse career spans more than 30 years in the retail property sector across Australia, where I have held operational and functional senior leadership roles in Property Management, Marketing, Facilities & Operations, Sustainability & Car Park Management and Customer Experience. My interests in a wide range of topics and passion for helping people have led me to consulting, where I can weave together my diverse experiences to produce comprehensive, cohesive, and affordable solutions for businesses, start-ups, and not-for-profits. Enthusiastic, talented, creative, and humbly confident, as well as nimble, adaptable, keen to learn and grow, and excited about delivering quality outcomes.

If you had to write a book, what will the title be? Why?

"Keep it Simple". It's the simplest things that bring us the most meaning, joy and happiness whether at work, at play, or at home. There is a beauty in simplicity.

How did you get to know PS and how did you become involved?

Victoria Miloschewsky was a guest on Episode 5 of On My Couch, which was co-produced by me. It was here that I learnt of PeopleStories, their commitment to help deserving children complete school in rural Siem Reap Cambodia. And PeopleStories has been making a real, positive and enduring impact together with the local communities. I was inspired by Victoria and PeopleStories.

Why PeopleStories?

High quality childhood education and care, gives children the best start in life. It provides important opportunities to learn and develop. Access to education is important to me as illustrated.

I was attracted to PeopleStories mission of providing greater access to education to the communities in need - dedicated to transforming lives through education, one dream at a time.

You are very generous with your support to PeopleStories. What do you get out of it for yourself?

By serving as an Accelerator Board Member hopefully I can help shape PeopleStories strategic direction and make a positive impact on the community and help children in rural Cambodia complete school. It is also a powerful way to grow personal and build professional expertise having the opportunity to cultivate new skill sets and achieve a real sense of satisfaction of working with like-minded people towards improving access to and quality of education. Most importantly, the opportunity to give and support those that have not had my same good fortune.

If you are granted 3 wishes to make the world a better place, what would those wishes be?

In making this a more perfect world:

1. Peace - Peace - Peace. A united free world.
2. Good health and happiness for all regardless of race, gender, age, location, or religion.
3. And in the words of Nelson Mandela "Education is the most powerful weapon which you can use to change the world.
